

# Loan Modification Tip # 2

Intero Real Estate Services—The Case Team

The information that you are required to provide can feel like you are going through a physical exam at the doctor. The lender will ask for very detailed information about your finances as well as the hardest information you will have to provide, the 'hardship letter'. This letter should detail why you cannot make the payment, not that you think the payment is too high. Many people fail in their hardship letter because the letter does not explain the hardship criteria. We can help.

We also are experienced in short sales, if needed. If you have any questions, please contact us at 925-308-7045 or via email at [caseteam@interorealestate.com](mailto:caseteam@interorealestate.com). We also can be found on Facebook. Find '**Case Team—Intero Real Estate**' and join over 100 fans getting up to date tips and information from us and our team of contributors.
